About Page-Flipping PDF

Page Flipping PDF is an application to batch convert the Adobe PDF files into the realistic Page Flipping E-books without any programming. It takes a few minutes only, but creates a wonderful page flipping e-book of users. People can share dynamic page flip products with friends and customs via an email or a website. Besides, the Page Flipping PDF output the flip book into different formats that can be run on the Mac, mobile version and CD.

Note: This product is based on a "Try before you buy" principle. All features mentioned in this instrument can be realized. Once you bought the software, you would get a unique register, and the registered version doesn't insert your watermark in your generated page-flipping eBooks.
